SuperPrice Sprint 1 Planning Notes
Team: P08-01

Sprint: Sprint 1
Date starting: 21st Aug 2023

Attended:
Scrum Master: Ledy
Product Owner: Prakash
Development team:
Anthony Imani - s3950363
Dylan Khan - s3916841
Ledy - s3409664
Ronald Ho - s3436258
Thomas Yao - s3832771
Victoria Needs - s3811305

1. Goal

   Release SuperPrice MVP.

2. Duration of the sprint

   3 weeks

3. What is the team's vision for this sprint?
   For this sprint, we are committed to complete item 6-14 from the product backlog. This is because from the discussion that we had with the product owner, the product owner insists that these items are the most important features that we want to have as the minimum viable product.

   By the end of this sprint, the shippable product will allow users to search for a product, select the product, add it to their cart, enter their delivery address and make a payment for the product.

4. Estimation in story points

   Item 6 - 10 points, because this includes both rendering the page and setting up the backend query.

   Item 7 - 16 points, because this includes both rendering the page and setting up the backend query.

Item 8 - 10 points, because this includes both rendering the page and setting up the backend query.

Item 9 - 6 points, because this is only the initial setup.

Item 10 - 5 points, because this is only rendering the page.

Item 11 - 8 points, because this is only rendering the page.

Item 12 - 4 points, because this is only rendering the page.

Item 13 - 5 points, because this is only rendering the page.

Item 14 - 6 points, because this is only rendering the page.
